Professional Profile

Software Engineer with a passion for building scalable and efficient applications. Experienced in full-stack development, working with modern frameworks like React, Next.js, and Laravel. Skilled in designing and implementing robust systems. Strong problem-solving abilities and an adaptive mindset in dynamic development environments.

Work History

10/2024 – present

Full-Stack Developer

Self-Employed

Hama, Syria

- Designed and developed My-Lab, a Next.js-based laboratory management system for patient records, test tracking, and formatted report generation.
- Integrated a GitHub-based deployment system, allowing automated updates via script execution.
- Streamlined data management and reporting, enhancing workflow efficiency in a clinical environment. \

10/2023 – 10/2024

Full-Stack Developer

Swan Techonology

Dubai, UAE

- Developed an e-commerce mobile app for Sabah Style -UAE based store- using React Native, integrating GraphQL with Shopify for streamlined product management.
- Optimized user experience and transaction flow, ensuring seamless navigation and secure payments.
- Built a document management system for AL-Hawash Private University, using Laravel and React, featuring a users and groups authorization model for controlled document access.
- Integrated real-time notifications for approvals, enhancing inter-departmental communication and workflow efficiency.

05/2021 – 05/2023 **Software Engineer**
Self-Employed
Hama, Syria

- Designed, Developed and Implemented a Tracking and Attendance System for Educational Institutions.
- Developed a web based Dental Clinic Management System to save and log patient data for Dentists.

Other Projects

2025 **Personal Manager App**
A custom-built productivity suite for managing personal data, including accounts, notes, todos, journaling, important dates, calorie tracking, and typing exercises.

2019 **Ophthalmologist Clinic Management System**
First production-grade tool built for a real clinic, developed during university. Helps manage patient records and visit history for an ophthalmologist, with a simple GUI and reliable database integration.

Education

06/2022 – 12/2022 Deep Learning Specialization
DeepLearning.AI
Coursera (Online)

08/2018 – 07/2024 Bachelor's of Informatics Engineering
AL-Hawash Private University
Homs, Syria
