Professional Profile

Full-stack Software Engineer with 4+ years of experience designing and deploying production systems across healthcare, education, and e-commerce. Skilled in React, Next.js, Node.js, SQL, and automation workflows. Proven ability to own projects end-to-end, optimize workflows, and deliver scalable solutions in fast-paced environments.

Work History

10/2024 – present

Full-Stack Developer

Self-Employed

Hama, Syria

- Architected **My-Lab**, a Next.js laboratory management system for patient records and standardized reporting.
- Automated GitHub-synced deployments, reducing update friction for non-technical users.
- Improved clinical data workflows, enabling faster retrieval and consistent outputs.

10/2023 – 10/2024

Full-Stack Developer

Swan Technology

Dubai, UAE

- Delivered React Native **e-commerce app** (Sabah Style) integrating Shopify via GraphQL for secure payments and product management.
- Built React + Laravel **document management system** with role-based authorization and real-time notifications.
- Optimized checkout and navigation flows, improving transaction reliability.

05/2021 – 05/2023

Software Engineer

Self-Employed

Hama, Syria

- Developed attendance tracking system for educational institutions.
- Built dental clinic management tool for patient data capture and visit history.

Other Projects

- | | |
|------|---|
| 2025 | Personal Manager App
Multi-feature productivity suite (accounts, notes, journaling, health tracking, typing practice). |
